

2026 Sliding Scale

We are trying to make Morse Hill accessible to more families, so we will be using a sliding scale again this summer.

Prices listed on our website as Tier 1 are the base price for camp. During the online registration process via CampDoc, you will be prompted to list your household income. Each income level over \$45,000/year annual household income adds an additional cost to the base price.

Income Levels:

Under \$45,000/year: No additional cost

\$45,000- \$75,000: Add 8% of the base cost

\$75,000 - \$120,000: Add 12% of the base cost

\$120,000- \$180,000: Add 20% of the base cost

\$180,000 and up: Add 35% of the base cost

This *self-attested* measure helps us more fairly spread the cost of camp for families and community members while ensuring a fair wage for our staff. We appreciate your understanding as we work to provide a more equitable model.
